COSPLAYER ✦ CONTENT CREATOR ✦ PROP MAKER

I. THE CREATOR

Hello. I'm David (known online as Sir8Davren), a 37-year-old cosplayer and content creator based in Passau, Germany. Available for events and shoots worldwide, I love bringing complex characters from video games and pop culture into the real world, with a strong focus on fantasy and realism.

For me, great cosplay relies on great teamwork. While my highly detailed, custom-sewn outfits are crafted by my regular collaboration partner [@zwillingsnadelcosplay](#), my personal crafting passion lies in prop-making. I specialize in 3D-printing, modeling, and assembling authentic weapons and accessories.

Having worked in front of the camera since 2009 and cosplaying since 2017, I bring extensive modeling experience to every shoot. I focus heavily on character acting and expressive posing to capture the exact vibe of the respective franchise. Combined with my own advanced photo editing and VFX work, my ultimate goal is to create images that completely blur the line between reality and an in-game screenshot.
